The experience of Miss Jennie Caraber of Port Henry, N. Y., with an extortionate back-man a few days ago is one of many similar cases that occur almost daily. Miss Caraher, who was on her way to Philadelphia from her home, engaged a cab at the Grand Central Depot to take her to the Desbrosses Street Ferry. When she alighted at the ferry she handed the driver \$2.50. The man followed her into the ferry house and demanded \$1.50 more. saying that his employer would require him to turn over \$4. Miss Caraher protested, but not knowing that she was protected from the extor-tion by the city ordinance, paid the demand. A gentleman who saw the outrage informed Miss Caraher that she was not compelled to pay the sum demanded. A policeman of the steamboat squad was summoned, and took the number of the cab. The driver, John Rogers, was subsequently arrested. It was found that the license for the cab was in another name, and that Rogers had no driver's license. In the Tombs Police Court he paid Miss Caraher \$1.60, all the money on his person, and was locked up until he should pay a fine of \$10.

A very small proportion of the drivers of pub-

lie carriages and cabs comply with the law. The ordinance expressly says that the schedule of ordinance expressly says that the senedule of fares shall be conspicuously fixed in or on the vehicle, and that no passenger is compelled to pay any fare if such schedule is not posted up. Following is the city ordinance, for the viola-tion of any provision of which a passenger may cause a driver's prompt arrest:

THE CENTRAL TRUST COMPANY OF NEW YORK.

The bonds are secured by a first mortrage on the entire railroad, equipment, franchises, and other preperty of the Company acquired and to be acquired, including the land grant, with the exception of the lands east of the Missouri River, subject only to the lien of the Pend d'Oreille and Missouri Divisional Bonds, to retire which an equal amount of these bonds are to remain in the hands of the trustee.

The bonds are receivable in payment of lands at 110 and interest. The proceeds of all the sales of land mortgaged, after payment of the interest on the bonds, must be applied to the purchase of the bonds, if below 110 and interest; if above that price, the bonds will be drawn by lot for payment at \$10 and interest.

The bouds so purchased, together with any received in payment for lands, will be held for sinking fund pur-

The sinking fund begins in 1885, is accumulative and sufficient at its minimum to pay off this indebtedness at

maturity. The Land Grant of the Company is very large and valuable, being at the rate of 12,800 acres per mile in the States and 25 600 in the Territories. The land east of the Missouri River is subject to the right of the Preferred tockholders to exchange their stock at par for purchase of these lands; but in the event of a default in the pay ment of the interest on these bonds the security of these

lands would revert to the bondholders. The main line of railroad when completed will extend from Lake Superior to two points on the navigable waters of the Pacific Ocean, i. e., Puget Sound, W. T., and about 2,400 miles in length. The branches and connec tions now owned or under lesse are 203% miles in length, making total line about 2,600 miles.

The proceeds of the bonds now offered will furnish the Company all the means required during the year 1881, and no further amount of bonds will be offered until 1882 According to the estimate of the Company, the expenditure of about \$40,000,000 will complete the line; the Divisional bonds (\$6,500,000) and the present issue will steadily diminish by reason of land sales; and on the completion of the line the fixed charges will not exceed \$2,800,000 to \$3,000,000 per annum. Under the former organization of the Company more than \$30,000, 000 of bonds had been issued, which bonds have bee converted into the present Preferred Stock.

THE SUN FOR 1881. Everybody reads THE SUN. In the edf-

tions of this newspaper throughout the year to come everybody will find: I. All the world's news, so presented that the reader will got the greatest amount of information with the least unprofitable expenditure of time and eyesight. THE SUN long ago discovered the golden mean between redundant

fulness and unsatisfactory brevity.

II. Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From morning to morning THE SUN prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates, and troubles. This story is more varied and more interesting than any romance that was over devised.

III. Good writing in every column, and freshe

sess, originality, accuracy, and decorum in the reatment of every subject. IV. Honest comment. THE SUN'S habit is te speak out fearlessly about men and things. V. Equal candor in dealing with each political party, and equal readiness to sommend what is praiseworthy or to rebuke what is biamable in

Democrat or Republican. VI. Absolute independence of partisan or ganizations, but unwavering loyalty to true democratic principles. The Sun believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of mea in the Republican party to set up another form of government in place of that which exists, The year 1881 and the years immediately folowing will probably decide this enpremely important contest. The Sun believes that the ictory will be with the poople as against the Rings for monopoly, the Rings for plunder and
